**Martyna Gumula** PHOTOGRAPHER cover

Martyna Gumuła was born in September 14, 1988 in a small countryside. She graduated from Wyższa Szkoła Humanistyczna in Gdańsk, where she studied journalism and PR. She's been a devoted artistic photographer for five years and a lover of fashion photography for a year. Martyna tries to present the original way of doing the whole work. She's dedicated, persistent and ambitious in pursuit of her own dreams.
Martyna wasn't looking for it, photography found her itself, in moments of sadness or despair she took the camera. Later she became overwhelmed with fascination for women, trying to reveal their souls she dipped in art photography creating her own style of capturing moments and post-production, few years later she started to search the completely new way until she was fascinated by beautiful simplicity, so she started to learn and create her own fashion portfolio. She says, that she will never be perfect, because there's nothing worse than self-aggrandizement, you should learn during the whole life.
She was also publicated in such magazines as Invited Magazine, Confashion Magazine, LaMode Info, Live & Travel, Prestiż, Nous Magazine, Positive Magazine, Modo Magazine, Invision Magazine, Vogue It.
Martyna takes photographs from passion and with passion. When you ask her a question, whom she would like to be for the whole life, she answers that she can't imagine her life without what she does now – photography.

Fashion and product photographer. Was born in former USSR (Ukraine), repatriated to Israel in 1990 and currently lives in Tel-Aviv district. Have Master degree in Computer Science, Bachelor in Business Administration. Primarily work in Hi-Tech industry. During business trip 4 years ago, accidently purchased first DSLR and since then photography becomes important part of his life and real passion. Studied different aspects of photography in Galitz school from several talented teachers, was thrilled completely by Fashion course with Shay Kedem. Was lucky enough to assist Shay during his photo sessions and while teaching. Later on got a job in one of the world leader medium format photography company, where met fantastic photographers from all over the world and discovered product photography with Igor Sakharov. This winning combination (fashion and product) makes possible to use both spheres of brain, "creative" and "engineering". Speaks English, Hebrew and Russian. Hobbies besides photography is traveling with his amazing wife, playing guitar and mountain biking. Finally realizes, that "Simplicity isn't simple".

## Andrea Cencini PHOTOGRAPHER editorial_ Intimitates

I was born 31 years ago in Bologna (Italy), where I live now. I have always been interested in photos, a passion inherited from my father. I was intrigued by photography because I felt that I could hold an instant of time, of emotion, a memory, right in my hands. Only a few years ago I started myself actively to work in the field of photography. I did not have school, I learned along the way, looking at hundreds of images of renowned photographers, trying to understand the used techniques and steal their secrets. Photography is my passion; it's my escape, my way of being, of expressing myself. It's a way of seeing the world but also a way to express my feelings and thoughts, which I could have never done through words. As Richard Avedon says "if a day goes by without my doing something related to photography, it's as though I've neglected something essential to my existence, as though I had forgotten to wake up.
